

Case study

SystemHosting gains new competences in RDLC reporting with Simplanova training

Dánial Bærentsen, SystemHosting project manager considers, that the training of Microsoft Dynamics NAV RDLC reports, organized by Simplanova, brought new competences to their team. They were very satisfied with 2 days intensive workshop, which was held in their office in Copenhagen.

Topic:

Microsoft Dynamics NAV
RDLC reports training.

Place:

Denmark, Copenhagen.

Duration:

Client:

SystemHosting
<http://systemhosting.dk/>

SYSTEMHOSTING
Intelligent IT®

Team:

1 Simplanova trainer.
8 client team members.

Challenge

SystemHosting had a challenge to learn RDLC reports programming and acquire new skills. This part always requires very specific knowledge of the team. Simplanova expert team of Microsoft Dynamics NAV helped SystemHosting to reach their target and start using acquired knowledge right away after the training.

SystemHosting is a Microsoft Certified Partner with proven competence in the following areas: hosting and Dynamics NAV. The company provides solutions, which are based on the experience in data operation, 24/7 emergency response, user support and Dynamics NAV development and implementation areas. The company is founded in 2001 in Denmark and was acquired by Columbus in 2016 to strengthen the NAV business.

Solution

According to SystemHosting needs, Simplanova assigned Karolis, who has more than 5 years' experience working specifically with RDLC reports, to prepare and conduct the training. SystemHosting prepared a detailed plan of competences their team needs to gain and a clear training plan what they need to learn. Simplanova's Microsoft Dynamics NAV expert Karolis hosted 2 days' intensive workshop due to client expectations in Copenhagen.

The training gave the informational and practical experience on the following topics:

- RDLC documents and complex list report with specific functionality.
- How to prepare RDLC report analysis, notes and processes?
- How to make a report according to prepared analysis?
 - data source;
 - business logic;
 - visual layout.

- How to choose the best test scenarios according to report types and business logic specification?
- How to perform better in Dynamics NAV upgrade projects with less possibilities of human error using Simplanova automation tools?

Results

Mr. Bærensten recommends Simplanova to other Microsoft partners for organizing MSDynNAV RDLC reports training.

Mr. Dánial Bærentsen agrees, that Simplanova's trainer Karolis was well prepared, knowledgeable about the training topics and had a deep understanding and practice experience about the field. Participation and interaction were encouraged and training objectives were met. The covered topics were relevant to the team and given examples and situations were helpful.

8 employees of SystemHosting Microsoft Dynamics NAV department successfully completed the training and apply gained experience in their daily tasks. Mr. Dánial Bærentsen recommends Simplanova to other Microsoft Partners for organizing Microsoft Dynamic NAV RDLC reports training.
